"...the work of Jackie Farkas brings to light the tactile convergences of painting and photography, by brushing chemicals onto photo paper and placing the developed products next to abstract oil and acrylic paintings of a related style and palette. Altogether, the work is well executed and worth a look."

-SARAH BURKE, EAST BAY EXPRESS

JACKIE FARKAS

"Color itself inspires me and it's all around us. Color has the power to uplift through it's vibrancy."
